

Modular T-Slotted Aluminum Enclosures

C&C enclosures are engineered and pre-fabricated to meet your custom needs. The use of advance technologies enables C&C to create a complete line of modular T-Slotted aluminum enclosures. Our enclosures are designed to be flexible, allowing for work area growth within limited plant floor space.

C&C has access to a complete line of modular T-slotted aluminum profiles and components, that are used in every product we make. The modular panel design provides a unique and affordable solutions for ease of assembly and installation, which are crated for cost effective shipping.

We specialize in engineering and building products to help your unique manufacturing needs. From blueprints to onsite assembly, we can do it all.

C&C enclosures are engineered and built to your exact requirements. C&C is recognized as a leader in pre-engineered work areas, which includes;

- *Acoustical & Noise Enclosure*
- *Automated Deburring Machining Center*
- *Break Rooms*
- *CMM Enclosure*
- *Computer Enclosure*
- *Coordinate Measuring Enclosure*
- *Equipment Enclosure*
- *Entrance Partitions*
- *Grinding & Polishing Machine Enclosure*
- *Inspection Camera Enclosure*
- *Inspection Equipment Rooms*
- *Office Partitions*
- *Portable Clean Rooms*
- *Protective Guard Rails*
- *Process Control Work Centers*
- *Safety Enclosures*
- *Temperature Controlled Enclosures*
- *Unlimited Applications*

Temperature Controlled Enclosure

Climate Control Systems

Wall and ceiling mounted air conditioners are available from 5,000 BTU and up. Filtered fans and exhaust grilles provide positive airflow.

Polycarbonate Safety Enclosures

Electrical Package

Enclosures can be supplied with a Modular Wiring System.

- *Light Fixtures*
- *Wall Switches*
- *Plug Outlets*
- *Junction Box*
- *Breaker Box*

Mechanical Frame

C&C modular aluminum enclosures are custom designed and built to meet your needs. You can select from a complete line of modular slotted aluminum profiles and components to make every modular enclosure.

The modular panel design provides an unique and affordable solution for in-plant enclosures, offices and partitions.

Doors and Windows

C&C Provides a variety of door options such as swing doors, sliding doors, counterweighted doors, and cylinder actuated doors.

C&C supplies clear or smoked gray Polycarbonate panels. Select from a variety of components for locking handles, hinges, and door plates.

**Inspection
Camera Enclosure**

Electrical Aluminum Roll-up Door

Surface Finish Cabinet

Panel Materials:

Select from a variety of 6mm thick PVC colored panel composites, which fit securely into our Modular T-Slotted Profile with vinyl gasket.

Base Mounted CMM Enclosure

Workstation Enclosures

- Precision Instruments
- Gages
- Computers/Printers
- Servers
